Vice Chairman
National SCHOMOS

'Program Transformasi Minda' (PTM) was started in January 2013 as a substitute to replace 'Kursus Induksi.' It is a five-day programme where civil servants will be exposed to the structure and organisation of the civil service.

During the phase of *Kursus Induksi*, MMA was given the opportunity to introduce its organisation to the house officers and recruit new members. However, as *Kursus Induksi* was replaced with PTM, MMA lost its slot.

Since then, the SCHOMOS ExCo has worked tirelessly to regain back the slot in PTM. Finally it was granted during a meeting with our Hon'ble Director General of Health, Datuk Dr Noor Hisham Abdullah. SCHOMOS's request was well-accepted by the Ministry of Health (MoH) who has now allowed us to be part of PTM from this October.

~~~~~  
It was an honour  
for SCHOMOS to  
be part of PTM.  
It is an avenue for  
us to expose our  
young doctors  
to MMA

We were given a 30-minute slot to introduce MMA to our aspiring doctors in each PTM. For the recent session, PTM was conducted in Kedah, Selangor, Pahang, Johor, Negeri Sembilan, Sarawak, and Sabah. Slides highlighting MMA's contribution in uplifting our doctors' profession and its membership perks were prepared by Mr Vasu Pillai and I. It was then utilised by respective National Working Committee members during the introductory slot.

Mr Vasu spearheaded the session in Kedah, meanwhile in Johor it was well-handled by Dr Tan Zi Han. Dr Kew and Dr Pravind did an excellent job in East Coast Malaysia. Dr Sanjiv and Dr Moveen took charge of the programme in Negeri Sembilan. MMA Pahang Committee members covered the event in Pekan, Pahang.

Overall it was an honour for SCHOMOS to be part of PTM. It is an avenue for us to expose our young doctors to MMA and recruit them into our esteemed society. We do hope many young doctors will join us.
